Tokyo International Arts Festival Committee

Greetings!

We are holding The 7th Tokyo International Art Festival 2022 (TIAF 2021) at Nihonbashi, one of the historical districts of Edo (old Tokyo). The sub title is "piece of peace ピース・ピース" We are inviting and exhibiting modern and contemporary art works from artists of solid reputation of the world. While communicating with art works which come from somewhere beyond space-time, you will enjoy a joyful and peaceful moment of an opening heart. We would like to express our deep gratitude to all of the artists who agreed to exhibit their splendid art works and to the many persons who have enthusiastically supported the exhibition. We wish to you a world, full of peace and love, through art.
